General Comment

- Generative AI takes a huge amount of critical resources like water and energy
- Generative AI takes a ridiculous amount of capital
- Generative AI is deeply unprofitable and largely pointless except as a way to avoid paying human workers
- Generative AI is used to fabricate false information
- Generative AI cannot tell what information is false
- Generative AI sometimes invents sources wholesale that do not exist
- Generative AI hallucinates
- AI kills people in cars by locking them inside when they're on fire
- AI in cars attempts to kill pedestrians
- AI is easily confused by basic things
- People relying on AI for information will result in the complete devaluing of any information since any of it can be false or erroneous
- Generative AI is built with stolen work
- Generative AI violates copyright
- Generative AI should be illegal actually
