General Comment

I am a veteran, parent, teacher, author, and artist. Do not allow OpenAI to use copyrights material to train their AI, it is theft for which a citizen would be held accountable. AI does not have more right than a citizen to steal from the work of other human beings. I don't think AI has a place in the future of the U.S, I believe it is a major threat. It steals jobs, it steals livelihoods, it consumes unconscionable quantities of energy, and if the Government implements it to control very sensitive sectors, the security of our nation is at extreme risk. Open AI should be shut down or banned from Government affairs. Again, it steals from the livelihood of Americans, threatens our national security, and Profits off theft. You cannot possibly support that. I certainly do not.
