General Comment

Don't give AI this kind of power over copyright. This is going to allow AI to encroach upon and just blatantly steal as it pleases overall and will harm everyone in the US in the long run. I don't think this kind of plan has any place being put into action in my country and threatens people's livelihoods. AI is also being used as an over-hyped buzzword for efficiency and hiding how these types of systems are going to affect people's work in general, and how it works to do the work it does.
