As of: March 21, 2025
Received: March 15, 2025
Status: [REDACTED]
Tracking No. m8a-w7dy-ubif
Comments Due: March 15, 2025
Submission Type: API

Docket: NSF_FRDOC_0001

Recently Posted NSF Rules and Notices.

Comment On: NSF_FRDOC_0001-3479

Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-3797

Comment on FR Doc # 2025-02305

Submitter Information

Name: Damon Bell

Email: [REDACTED]

General Comment

I am asking you to not allow OpenAI use copyrights material to train their AI, this is stealing. I do not think AI has a place in the future of the U.S, as it is taking many jobs and opportunities for humans who have learned and taken time to pay for college for degrees in profession fields that companies are planning to use so it lessens their costs in development of projects. More importantly, these AI systems are being taught by many works of professionals who display their work amongst media, which is considered stealing.

A bunch of Americans and other nationalities will have their work stolen and profited off of with no compensation, consent, or involvement with any of these companies who are choosing to do this.

This is a major threat towards thousands of people. It steals jobs, it steals material, it consumes a lot energy and pollutes that is very damaging towards the environment, the people in the Government is implementing these very dangerous and destructive, if not economically damaging policies. AI should be regulated and banned from being able to learn off of non-consenting people. Open AI should be shut down or banned from Government affairs, as it is stealing from thousands people and creating a lot of environmental damaging problems.

Please, do stop OpenAI from progressing forward with these rather horrible and destructive policies, and prevent other companies from trying to do so. This is very abusive and harmful to a lot of people. Not just Americans, but other countries as well, as all of our work as a world together is displayed for those to enjoy and created out of what we have learned ourselves.
