General Comment

I am writing this to say that I am against the Artificial Intelligence Action Plan. AI steals from real artists and rob them out of jobs where their talents can flourish. AI should never make the talents of real people obsolete, especially when the AI's work is never truly there own to begin with. I do not want America to become the leader in AI technology and to make AI itself more powerful and dangerous for real people. Hard work and talent should be done by real people, not an AI that can only mimic others. That is why I am against the Artificial Intelligence Action Plan and request that this law is never accepted.
