General Comment

As an artist, I've spent my entire life pouring my soul into my art. It's been a constant companion in my life, and helped me get through really hard times in my life, when I didn't have much else. If I had a piece of paper and a pencil, I could express myself. Even if that expression was boredom, just to pass the time, it's still a human emotion, poured onto paper for all the world to see, or not see, at my leisure as an artist.

It helps me communicate with loved ones, and friends. It brings joy to people's lives, including mine. I can cry in my art, be angry in my art, express love in my art.

AI takes all of that away. AI just grabs all my love and anger and humanity and throws it in a brutal blender, to be chopped up and spit back out based on a few lines of uncaring text. An expression of a human's soul, their very humanity, torn away in a blink, fed to a program that removes all emotion and humanity from it, to churn out something slopped together quickly.

AI is supposed to help us automate the 9% in our lives so we can spend more time making art and expressing ourselves. AI shouldn't be taking the expression away and forcing us to be wage slaves. You've got it all backwards. I do not support letting Open AI or ANY AI just have free run of any image they can get their greedy corporate hands on. Open AI should NOT be protected from their unethical theft of artists hard work! A company I never gave consent to use my works is STEALING from me to make money off me without compensating me. That should be illegal! Not protected! This is flagrant copyright violation if nothing else!

Defend and protect human artists! Fight AI!
