General Comment

This is plagiarism. This is theft. This is anti-American nonsense. Protect art, artists, and original ideas, or nothing this country creates ever again will have value.

Machine Learning (not AI) image generation is theft. No other way around it. It's soulless garbage and it has no value or merit. It is fundamentally evil.

AI makes our country, and our world, worse. Do not allow these goblins to steal from real artists. These people do not deserve a trophy for stealing from people with ACTUAL skill. With ACTUAL talent. OpenAI is a PARASITE and must be regulated or destroyed. The only alternative is the death of free speech and the death of freedom of expression.
