General Comment

You all didn't learn from I Have No Mouth and I Must Scream, Robocop, Terminator, 2001: A Space Odyssey, Do Androids Dream of Electric Sheep, Blade Runner, Roko's Basilisk, Fallout 4, and so on. You just had to keep pushing for "progress".

AI is the 2nd atomic bomb and its use and proliferation is not only dangerous to artists and creative minds, but also to the world. This needs to stop. Now.

OpenAI, in my eyes, is a terrorist organization that needs to be investigated and shut down, not enabled by the government to steal other's work and be spread around for extremely dangerous military applications.
