Document: NSF_FRDOC_0001-DRAFT-3928
Comment on FR Doc # 2025-02305

Submitter Information

Name: Andrea Pitman

[REDACTED]

General Comment

The idea that AI companies need to steal data—art, writing, our individual communication as human beings, is such an absurd escalation of their grift. As an agented writer, as someone who cares about human made art, and as someone who thinks that business should be about creating good products without asking a whole ass government to intervene on your behalf to let you steal the labor of others, I ask that you deny these awful companies this.
