Document: NSF_FRDOC_0001-DRAFT-4122
Comment on FR Doc # 2025-02305

Submitter Information

Name: Morgan Looney

[REDACTED]

General Comment

The idea of this plan would be absolutely disatorus to creative business. AI has failed to produce anything of a return on the massive amounts of money spent on it.

In addition, it would be very easy to make misinformation. It would spread like wildfire, and much of it could easily be manipulated against the Federal Government.

All in all, it would be for the best interests of the administration to reject this plan instead of giving it any thought.
