General Comment

Do not let OpenAI use copyrights material to train their AI. It is blatant theft, and AI does not have a place in the future of the U.S. It's a threat- jobs and livelihoods are stolen, increasing the unemployment rate. It consumes resources and energy better used for other projects and developments, least of all water. It profits off of theft and is seeking to sidestep legalities that exist as protections for precisely scenarios like this. [REDACTED]

Please stop OpenAI, the possibility of things becoming even worse for questionable and minimal gains is ludicrous and short sighted; or it is a sign of blatant corruption and a lack of care for the American people. Either situation is terrible and damning for the competence and or intentions of the current individuals within the White House.
