General Comment

I highly disapprove of any plans to bolster AI because it means that Americans' private data will be stolen and sold to companies training machines that have been proven to be detrimental to both the livelihood of American citizens and the environment. I do not believe AI holds a place in the future of the US. AI steals from my livelihood and profits off of theft. AI is overhyped and is fleecing the eyes of the American public. No American citizen truly wants AI in their lives. There are no benefits to AI; it is useless and detrimental. As an American citizen it is my duty to demand that any federal order seeking to bolster AI is shut down.
