General Comment

I'm not sorry for saying this. What is wrong with the US? EVERYONE is expected to follow copyright laws. A.I. "training" is plagiarism. It steals trades and livelihood of Americans, including me. With millions invested into AI and little to show for it, it is overhyped in the public and shoved into our faces. AI does not have a place in the future for the US, in trades, in healthcare, in programs. Stop it. Do not strip away my trade, do not jeopardize the American people from their living. You are giving it away to theft and making theft profitable.
