General Comment

AI is soulless and genuinely so money hungry its not even sad. I'm wholly against this, as its a violation of all artists before and after our time. Not only that, but AI is so ungodly dog&^% at everything and th eonly way companies can justify it is because they THINK its good. Go ahead. Drop the copyright bomb and watch as AI is used for some genuinel yhorrible s&^% against both companies and individuals.
