General Comment

Allowing AI scrapers to steal the copyrighted work of human artists diminishes the important contributions of American artists to the global cultural conversation. AI "art" will never be as moving, nor as profitable, as the work of real human artists. This plan will further impoverish hardworking AMERICAN ARTISTS while only creating more milquetoast drivel that isn't even worth the energy required for the scrapers to make it. Please don't treat artists like this. They are what make our country great.
