General Comment

I do not believe AI holds a place in the future of the US! Please stop pushing to keep stealing for "training".

AI steals from my livelihood as an American and profits off of theft! Art and creativity can't be bought and sold. You are STEALING lives, passions, and the love of creating to be the push of a button.

AI is overhyped and is fleecing the eyes of the American public. People are tricked by it left and right, photos of fake ai take the place of real references and photos. The deluge of ads and ad ons on every one of my devices is a nuisance and does NOT make my life better. ESPECIALLY if it's built off of THEFT.

I have already had it take away so much, we (as artists and writers) have so little and it feels like no protection or rights.

My life's work will not be chum for the feeding of AI sharks.
