General Comment

My beliefs as an American citizen that the right to work and not have said work be stolen from me and my other individual creators disregarding any intellectual property rights that AI steps over is abhorrent. This will only lead down to continue exploitative practices and abuse of power through our economy and government. Not to mention the addition of politically charged propaganda where AI altered photos may be used to create falsified documents used to charge the innocent with unjust and unfair crimes punishing those who have done nothing wrong, and further allowing our country to descend into facism. Do not let this pass for any reason.
