General Comment

I believe the current course of action is reckless and erodes the protections of our nation's freedom of speech, allowing the societally-disconnected rich to freely claim and profit off of the work of countless hard working Americans through the faceless actions of corporations that they hide behind.

To disallow the ability of our hardworking creative talent to be compensated fairly through use of their creations undermines the American dream and heavily incentivizes any and everyone to create quickly made, low quality trash to be fed into the AI algorithms for a quick, too-low buck.

A high quality well-fed AI/LLM is likely to do better over a low quality overfed with fast-food AI/LLM.
