Name: Lexx Walker
Email: [REDACTED]

General Comment

AI needs to be litigated with the same amount of scrutiny and severity as piracy or copyright. Humanity's creativity and ability to convey human emotion to one another is being threatened, the creative industries decades of effort is being stolen and milled up into digital garbage that conveys nothing and creatively bankrupt. Without an action plan to heavily safeguard the efforts of the creative industry as a whole, corporations will exploit and befoul the freedom and ingenuity that this country used to stand for.
