General Comment

AI is purely hype and should not be standard for US Interests. It harms the environment, it harms the economy, and it encourages cheating in life. AI should be extremely regulated, as there can be copyright issues and AI should NOT be exempt from these issues. AI does not have a place in the future. Why should we care about anything or listen to anything if a real human being didn't put the effort into it? I want Humans, not AI. I want Human Artists, Not AI. I want Human Musicians, Not AI. I want HUMAN DOCTORS, Not AI. I WANT HUMANS.
