General Comment

Commenting to voice my concerns that this sort of technology is going to be used to both put people out of jobs and rob people of their ability to think/create. I work at a school and I'm already seeing it happen both in and out of work; students and adults alike are becoming overly reliant on something that constantly steals, is incorrect, and can absolutely be manipulated. This technology is not something that should have federal resources conferred to it while we have so many other ongoing issues as a country.
