General Comment

AI is used only for theft and miss information. These companies should have no right to use the work of others for thier own profit. I know countless peoples who's hard work and livelihoods havebeen stolen. AI only hurts real Americans.

While I know this is to discuss the attempted theft of copyrighted material belonging to the average citizen by AI tech corperations, I know AI has been used for revenge porn, child porn, multiple forms of bullying and harrasment, fake political imagery, scams, and if the US allows this this will be a disgusting act of violence against its citizens by enabling the worst people possible. We see news of this daily and it needs to be stopped and not allowing AI to run crazy would protect the people.
