General Comment

The intended use of these tools is to steal the livelihood Americans to profit off of the labor they perform via theft of their intellectual property.

Do not allow big tech billionaires to force Americans into poverty by destroying their jobs in favor of hallucinated output by computer programs that don't know what they're doing and don't care why it's being done.

AI cannot replace human beings in the workplace because it is a fundamentally flawed big tech boondoggle that requires fraud and theft to generate nothing but more fraud and theft.
