## General Comment

Allowing AI companies to evade copyright infringement and be immune to lawsuits would be beyond irresponsible, and mostly likely result in millions in the entertainment industry losing work and entire companies going bankrupt. We cannot allow this, please do not allow this. I do not believe AI holds a place in the future of the US. All it does is steal from my livelihood as an American and profits off of theft of intellectual property. AI is overhyped and is fleecing the eyes of the American public. It's nothing but a stupid fad that people are aiming to use as a tool to avoid paying workers who have families to feed and bills to pay.
