General Comment

AI art steals from artists who have put in the work perfecting their craft to profit and make a lesser product. AI art does not have a place in society, and allowing it to steal resources from real humans would be a detriment to all. AI has already stolen and replicated so many works and mistreated so many, we should not let this continue. AI art should automate the bad parts of life so that we can focus on creating art, not create cheap meaningless art and leave us to continue doing the grueling work. Please do not let AI steal the works of real human artists any longer.
