General Comment

Good day. I wanted to comment expressing my concern for OpenAI. While AI does have its benefits, it is imperative that the development of AI be correctly regulated. The use of copyrighted material in training AI is theft, and is dangerous as it hurts all aspects of the artistic industry across the world. This especially hurts because it goes against the core values of being an American, as we highly value the opportunity to run and start our own businesses. Letting AI freely use any artist's copyrighted material hurts the artist's livelihood and discourages human artistic freedom.

I hope you take this message and all the messages sent into account before allowing OpenAI to steal from artists.

Thanks for reading.
