General Comment

I am an US citizen, but am commenting anonymously because of the recent actions of the government wherein free speech is punished by deportation and “disappearing”.

Generative AI that steals the work of others and destroys the environment is a scourge upon the world. Copyright law will not allow it, there will be lawsuits, and the crash of Tesla stock is in OpenAI’s future. I will boycott all products using generative AI and if there is a class action lawsuit, I hope it ruins Sam Altman and his cronies.
