General Comment

Generative Ai/Ai is nothing but a form of theft. It is soulless. It is hollow. It is unwanted. It is vile. It steals from hardworking, talented artists across countless mediums. From paint and illustration, to music, to voice acting, to animation, and motion pictures.

The ultimate goal of this endeavor is to control the creative arts without having to pay the humans, who create the very works that Generative Ai SCRAPES, and STEALS.

This is an effort to produce a "get rich, quick" scheme, and completely circumvent copyright law, that will only benefit the very technology companies/upstarts that have been responsible for similar, garbage technologies, like cryptocurrencies, NFTs, etc. All of which have been found to be nothing more than Ponzi schemes, and rug pulls, that hurt gullible people, making them believe that "we too, can become rich, overnight".

Do not allow Ai to have free rein over the works of human beings.
