White House AI Action Plan Comment Letter

Instructions on submitting for the “Request for Information on the Development of an Artificial Intelligence (AI) Action Plan” by the National Science Foundation

*Thank you for taking the time to submit your public comment! **Comments must be submitted by 3/15/2025 by 11:59 pm EST!!***

1. Copy the letter found on two pages after this page into a new text document.
2. Fill in the appropriate sections for [YOUR NAME], [YOUR PROFESSION], [YOUR ADDRESS] near the top of the letter, or remove those if you intend to submit anonymously.
3. Feel free to use the letter as is or adjust it to your preference, or write your own.
4. Export your document as a PDF, DOCX, or similar.
5. Go to this URL:
<https://www.federalregister.gov/documents/2025/02/06/2025-02305/request-for-information-on-the-development-of-an-artificial-intelligence-ai-action-plan>
6. Click the green “SUBMIT A PUBLIC COMMENT” button near the top of the page.
7. Under “Upload File(s)” click the green button “+ Add a file” and attach your exported document. The “Comment” field will now say “See attached file(s)”.
8. You are not required to put your email address in the “Email” field, but do so if you want to track your submission.
9. Select an option under “Tell us about yourself! I am”: if you are submitting as just yourself select “An Individual”. You may also choose “Anonymous”.
10. If you selected “An Individual”, put in your first and last name in the respective fields, you are not required to fill out any more information.
11. Check the box “I read and understand the statement above” which acknowledges that any personal info you included will be viewable on the web.
12. You may preview your comment to double check everything by clicking “Preview Comment”.
13. Click the green “Submit Comment” button.
14. You’re done! Please submit by 3/15/2025 by 11:59 pm EST.

Re: National Science Foundation's Request for Information on the Development of an Artificial Intelligence (AI) Action Plan

I am an everyday American who owns a small visual design business which serves clients in the entertainment industry. I have worked hard for years to develop the skills and knowledge to build my business, and have been lucky enough to make a decent living and support my family – until recently.

The AI systems made by Big Tech companies like OpenAI (Microsoft) and Google threaten to destroy thousands of American small businesses like mine with their recent demand to create special carve outs in copyright law.

AI systems can only be produced by first training on work made by people. My unique work, and the work of hundreds of thousands of other everyday American creators was taken and fed into these AI systems without our consent or any compensation. They ingest our work, reassemble it, and then sell it back to our clients – directly competing with us and cutting us out of the marketplace.

Now these Big Tech companies are asking this administration to create exceptions and loopholes to make this practice of stealing American creators' copyrighted work legal precedent. They are suggesting that if a machine ingests and reproduces copyrighted work, it is somehow suddenly "fair use".

They seem to believe that anything and everything on the internet – regardless of who owns it – should be theirs for the taking. They claim that if this administration does not allow them to rewrite the law in this way, it will stifle American innovation.

Instead, it will have the opposite effect. The purpose of American copyright law is to protect the incentive to create and innovate.

If we the American people do not own our creations, and everything we put online will be stolen by Big Tech giants, what will be the incentive to create? If everyday Americans create a new innovative piece of computer code, a new visual design, or a new piece of music only to have it immediately stolen by Google and Microsoft, why bother creating it in the first place? How will we possibly make a living doing these things?

Want to protect American innovation? Protect American creators. **Do not create new copyright exemptions that allow Big Tech companies to exploit and steal from creators and everyday Americans without permission, compensation, or transparency.**

This administration's AI Action Plan should focus not on giving away creator content to Big Tech companies, but rather on ensuring a fair marketplace with competition:

- First, the government should ensure that creators and everyday Americans give effective **consent**, so that we can decide when and where our work is used by AI systems.
- Second, the AI Action Plan should encourage a robust **licensing** marketplace, so that the incentive to create for small businesses is preserved. Our work has immense economic value, so the value generated by that work should accrue to the original creators, not just Big Tech.
- Finally, the AI Action Plan should require **transparency** from Big Tech companies, requiring them to disclose what material is in their training datasets, and label what content is AI generated.

I am not anti-technology or anti-AI. I am consistently impressed by the capabilities of these AI systems, and find them incredibly useful for many things. But we should not sacrifice the hard work of hundreds of thousands of Americans and give it away to Big Tech by rewriting copyright law.

Thank you for the opportunity to comment on these important issues.
