General Comment

I submit these points of opposition to the executive order by President Trump:

-I do not believe AI holds a place in the future of the US or any nation that prides itself on ingenuity, creativity and resourcefulness.

-AI steals from my livelihood as an citizen, filmmaker, media tech and profits off of that theft while I'm left uncompensated.

-AI is not a substitute for human contributions and will take many jobs from hardworking Americans.

Thank you for hearing me out on this critical issue.
