General Comment

- * I do not believe AI holds a place in the future of the US
- * AI steals from my livelihood as an American and profits off of theft.
- * AI is overhyped and is fleecing the eyes of the American public.
- * AI cannot replace human ingenuity and creativity.
- * The people pushing AI the hardest are the people who want to make a profit off it at the expense of the american taxpayer.
- * I will never support a politician who votes to expand AI usage ever again, nor will I give them any money no matter how hard the DNC begs me.
