Recently Posted NSF Rules and Notices.

Comment On: NSF_FRDOC_0001-3479

Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-5208

Comment on FR Doc # 2025-02305

Submitter Information

Name: John McGuff

General Comment

Large language learning AI models are a terrible bet. They are anything but intelligent and have no use case outside of making bad art and worse search engines, or taking services that could be performed by a human and doing it worse in general. In particular, this affects my ability to be as productive as management types believe they can replace low paid programmers with chatbots, using the code they output wholesale for tasks without any sort of sanity checking, causing hundreds of bugs and huge amounts of lost work hours in the race to replace humanity. It is inefficient, it is costly, and it is stupid to take the guard rails off this.
