General Comment

This document is approved for public dissemination. The document contains no business-proprietary or confidential information. Document contents may be reused by the government in developing the AI Action Plan and associated documents without attribution.

Hello. I am an artist and I have major ethical issues with generative AI. They are trained on the work created by people without their consent, often impacting their small businesses. This is an undue burden on artists and is copy right theft. We need protection from powerful and wealthy tech companies stealing from us.
