General Comment

Please DO NOT allow this to happen.

AI is an outstandingly wasteful technology that has no place in our society.

Even if that were not the case, as a working artist I object in the strongest terms to the way it functions as both an engine of theft and also a machine that churns out empty, lowest-common-denominator garbage.

It is a field for hucksters and vultures and we will gain nothing of value by allowing it to further swallow our economy and energy grid.
