Comment On: NSF_FRDOC_0001-3479
Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-5353
Comment on FR Doc # 2025-02305

Submitter Information

Name: William Andersson

[REDACTED]

General Comment

My name is William Andersson, and this document is approved for public dissemination. The document contains no business-proprietary or confidential information. Document contents may be reused by the government in developing the AI Action Plan and associated documents without attribution.

I find this to be abhorrent and I do not believe AI holds a place in the future of the US. In addition, I am an up and coming writer, and AI being able to take my copyrighted work threatens my livelihood as well as the livelihoods of other creatives, and profits off of such theft. Finally, it is plain to see that developers of these AI programs are overrating what their programs are capable of doing, and are fleecing the general public and their investors; if you don't believe me, then I have a bridge to sell you.

I hope you make the correct choice and keep copyright guardrails and refuse to give OpenAI and other similar companies immunity to lawsuits for copyright infringement.
