General Comment

AI is already threatening to replace my job as an artist and a creative in general, and this is only going to make that worse. This AI garbage is theft on an unprecedented scale and this is going to straight up legalize it, it cannot be allowed to go through. For god's sake please don't let this go through, do your job please, artists and writers are counting on you. I've already contemplated killing myself multiple times over getting replaced by this stuff, please don't let it happen, it's one of the only things I have left quite frankly
