General Comment

I believe that Artificial intelligence holds no future in the future of the US and in allowing this to pass it would not only not help the American public, but harm many. It has and continues to steal from many American citizens pockets, livelihoods, and minds. It is directly profiting off of the theft of the peoples property. Artificial intelligence will only damage the American public and their beautiful environment with its beyond harmful effects on nature. It is tricking the people and fleecing their eyes.
