General Comment

AI is a garbage technology and all it does is enable talentless losers to steal from people who actually put forth the effort to create something great. AI needs to be heavily regulated and not used in the art spaces at all. No AI in movies, No AI in video games to replace developers or actors, no ai music, no ai books, no ai writing. All it does is rob actual creatives and take away jobs from real people who actually want to do the thing ai replicates in a piss poor manner.
