General Comment

Absolutely do not give OPEN AI this access. They should not be allowed to legally steal copyrighted works from people just because their terrible business plan requires mass theft to work.

If any other business required begging the government to let them steal supplies they would be laughed out. What they have done is stolen the work of tens of thousands if not millions of people to try to sell it back to them and destroy the jobs of people who actually put in the effort to hone their craft.

If you want to see more videos of the president licking elon's feet more power to you. You'll get so many more if you give this to them.
