Recently Posted NSF Rules and Notices.

Comment On: NSF_FRDOC_0001-3479

Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-5720

Comment on FR Doc # 2025-02305

Submitter Information

Name: Chris Cassidy

General Comment

While there may be good use cases for generative AI, it is currently an enormous waste of resources and a clear asset bubble. The development and use of new models will only be successful under regulation that aggressively defends intellectual property rights. AI firms should be free to pursue profitable applications (though few have so far been found), but these multinational firms must not be permitted to pass on the many externalities of their business model to US taxpayers.
