Docket: NSF_FRDOC_0001

Recently Posted NSF Rules and Notices.

Comment On: NSF_FRDOC_0001-3479

Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-5962

Comment on FR Doc # 2025-02305

Submitter Information

Name: Robert Brewer

General Comment

I see no reason that a particular technology (and particularly one of limited utility to the world) should have special treatment with regard to copyright. Such a policy would be extremely regressive, concentrating wealth in the hands of the technological elite at the expense of countless creators laboring to make all our lives richer. If you starve artists of the ability to support themselves making art, you will find existence a much drearier place.
