General Comment

Having read the news of President Trump's Executive Order regarding AI, I am disgusted and vehemently against it. As an American who has made her livelihood through art and music, it is horrible that my work and that of millions of Americans can be stolen and used in AI learning models. AI has no place in the United States. In a time of extreme misinformation and environmental crisis, AI is leading the charge in false imagery, water waste, revenge porn, and Nazi propaganda, accommodating fascists in a world where the facts do not match their deluded reality. I do not condone the use of AI, nor the United States government's insistence on trampling on the labor of millions of people to spread its own agenda. If the government had any respect for the laborers that keep it afloat, it would cease the efforts to make AI a staple of American culture. Thank you.
