General Comment

AI only functions because of theft from countless people and devours massive amounts of electricity to do nothing valuable. It is massively unprofitable as OpenAI loses billions of dollars every year and its product is highly inaccurate and doesn't do anything useful. Investment in Generative AI will waste billions of taxpayer dollars and would condone theft of intellectual property. It is the latest tech fraud after "crypto" and the "metaverse". Please do not fall for this scam.

Thank you
