General Comment

Please require Gen AI to adhere to strict energy guidelines, and make it illegal for anyone using it to train their models on artists work without direct permissions or require them to only use designated data sets that are trained with willing participants who are paid fairly for use of their work if they wish.

please also make it illegal for people to create images with the purpose of misleading, or misrepresenting facts. do not let gen AI be used to spread harmful misinformation

please.

the potential harm generative AI is capable of cannot be overstated. ecologically, psychologically, financially, politically.

We need this technology regulated ASAP

people's well being are at stake.

thank you.
