General Comment

I call for the government I elect and pay for to stop any provider Or builder of AI from stealing content that does not belong to them or whose rights they have no legal access already. Just because they can do something digitally does not mean it is good or legal. As a writer, a director and maker of IP, I do not give my permission for anyone to use anything Without my written consent. This has been the law for 100s of years. Let it remain our law!
