Comment On: NSF_FRDOC_0001-3479

Request for Information: Development of an Artificial Intelligence Action Plan

Document: NSF_FRDOC_0001-DRAFT-6143

Comment on FR Doc # 2025-02305

Submitter Information

Name: Jess Tennant

General Comment

Hi, I'm a production artist in the signage and branding industry and AI is literally ruining the environment and my industry by using obscene energy to generate incorrect information and the ugliest media I have ever seen in my lifetime. Literal s&^% smeared on a wall is preferable to looking at anything AI generated. Please do not invest more time in plans for it, we want solutions to real world problems like the rising costs of groceries and healthcare access for all. Investment in AI is inhumane at this point in time. Please focus on caring for the concerns of living people.

Furthermore training AI off the work of people without their explicit consent is theft, pure and simple. Someone smarter than me wrote 'if a human can't be bothered to make it why would I bother to engage with it' and that's 100% true. It's not art, it's boring unoriginal stolen SLOP and I'm sick of it. Please stop spending time on it. Thank you.
