General Comment

"Burdensome government regulations" you mean they were barred from STEALING copyrighted material.

AI isn't going to be the magic bullet you think it is. Everything it does that even LOOKS impressive, it's done because it was allowed to steal people's work without paying for it.

Look. I actually really like AI. I think it's very cool. I have an OpenAI subscription because it helps me with writing tasks.

But if they're going to use a writer's work or an artist's work, they need to pay a fair price for it and they need to get sued if they steal.
