General Comment

Artificial Intelligence is the absolute worst way forward for a culture already sucked into false reality through electronics and technology they can't differentiate between. Human MINDS are the center of all things creative, and computers can only spit out what you tell it.

END THE PURGE OF HUMAN MINDS
END THE TAKEOVER BY TECH
END THE UNEDUCATED ABSORPTION OF AI

Remember, just because it seems cool at first, doesn't mean it's actually cool.

And this time, there's no takebacks.
