General Comment

Reasons why I do not support the Development of an Artificial Intelligence (AI) Action Plan:

- 1.I do not believe AI holds a place in the future of the US.
- 2.AI is overhyped and is fleecing the eyes of the American public.
- 3.AI is a speculative market similar to cryptocurrency and NFTs, with false promises to fool the public and huge legal problems by enabling them.
- 4.AI disenfranchises artists (especially those who are chronically ill or disabled) from the opportunity to have a more stable income through their work.
- 5.AI search results have poisoned Google image results (examples include animal photography, historically accurate clothing, cartoony/stylized art pieces, etc.)
