General Comment

AI will take so many important jobs and livelihoods including my own and I can't stand by and watch the commitment I have had to my craft through my entire life as a young individual go to waste. My dream job won't be something I can access and it's already hard as it is to find a desirable job in the art field. This action plan can ruin dreams of young creators in many different creative fields and it breaks my heart to see it even considered. We should not be STEALING hard work from hardworking people.
